

UNITED IN BIODIVERSITY

Resources and opportunities for STEAM teachers to integrate biodiversity education in primary schools.

WE OFFER :

- ✓ *Ready-to-use lesson plans*
- ✓ *Fully covered international training to Lisbon (Feb. 2024)*
- ✓ *MOOC and other training opportunities*

**Co-funded by
the European Union**

WHAT IS BIODIVERSITY?

Biodiversity refers to the incredible variety of life on Earth, encompassing all the different species of plants, animals, microorganisms, and ecosystems. It is a measure of the richness and abundance of life, capturing the diverse forms, functions, and interactions that exist within the natural world.

Biodiversity is crucial for the stability and resilience of ecosystems, providing essential services such as clean air and water, pollination, nutrient cycling, and climate regulation.

WHAT IS BIODIVERSITY LOSS?

Biodiversity loss refers to the ongoing decline and extinction of species and ecosystems worldwide. It is a result of various human activities such as habitat destruction, pollution, deforestation, overfishing, and climate change. Biodiversity loss disrupts the delicate balance of ecosystems, leading to the loss of crucial ecological services, reduced resilience to environmental changes, and diminished genetic diversity. It poses significant threats to global food security, human health, and the overall stability of our planet's ecosystems.

WHAT CAN YOU DO AS A TEACHER?

As a teacher, you are well-placed to educate future generations about the importance of biodiversity and to discuss the challenges that the world ecosystems are facing right now. We understand that talking about biodiversity might be challenging and for this reason our project wants to provide you with all the necessary skills, knowledge and confidence to integrate biodiversity education in your classroom.

WHAT ARE THE NEXT STEPS?

Give a a like and follow us on Facebook and get in touch with us via Messenger if you would like to be involved in the project. We will be happy to give you more information!
